Medical-Dental Procedures

The following specialty codes can be classified as either medical or dental procedures. All of these services will require prior authorization before the services are performed to determine if the claim will be filed under Dakota XIX or filed with Medical Services within the Department of Social services.

When authorization is given and the predetermination voucher returned to the treating dentist, payment for most of the codes will be based on 55% of billed charge or the DDPSD Usual, Customary and Reasonable fee, whichever is less.

In order for TMJ procedures to be covered under the Dakota XIX program, the problem must be specifically related to the dental malocclusion.
